

METROUROLOGY

MILK OF MAGNESIA PREP

1. Clear liquid diet the day prior to surgery (e.g., water, clear juice, Jell-O, tea).
2. Milk of Magnesia 1 oz at 8:00 AM and 3:00 PM the day prior to surgery. Repeat one more time if no results.
3. Nothing to eat or drink after midnight unless otherwise instructed by your physician's office/hospital. No smoking for 24 hours prior to surgery.
4. Report to the hospital a minimum of 2 hours prior to surgery time or sooner if the hospital requests it.
